

Special issue of *Computational Statistics* on  
Advanced Data Analysis with Gretl

Guest Editors: A. Talha Yalta, Allin Cottrell, and Paulo Canas Rodrigues

This special issue (SI) is intended to include some of the best papers presented at the 9th Gretl Conference, held at the University of Birmingham on June 19 and 20, 2025. Submissions will be refereed and subject to the same high standard as regular submissions to *Computational Statistics*.

Submitted articles must not have been previously published, or currently submitted for publication elsewhere. As an author, you are responsible for understanding and adhering to the submission guidelines of *Computational Statistics* available in <https://www.springer.com/statistics/journal/180>.

Papers should be submitted online at

<https://www.editorialmanager.com/cost/default.aspx>

or

<https://link.springer.com/collections/djaggbgfhf>

Please select “**S.I.: Advanced Data Analysis with Gretl**” as article type in the editorial manager system to make sure that your article gets assigned to this special issue.

Please forward the confirmation e-mail you receive from Springer to A. Talha Yalta (email: [talhayalta@gmail.com](mailto:talhayalta@gmail.com)) upon successful submission of your manuscript so we can keep track of the articles submitted for this SI.

**Important dates**
